Columns

Column #1

A change from last month (except for a small change in number of tables or betting limits) is denoted by a plus, minus, or asterisk in the second column. Plus means a change for the better, and minus means a change for the worse. An asterisk means a change that cannot be described as for the better or for the worse.

Column #2

The second column is an abbreviation for the name of the casino.

Column #3

The third column is an abbreviation for the location of the casino.

Column #4

The fourth column is the number of blackjack tables. The count is total tables with the given number of decks and rules, not just tables that happened to be open when the reporter visited.

Column #5

The fifth column is the casino edge, the advantage the casino has over a basic-strategy player, in percent. These numbers come from computer simulations using total-dependent basic strategy for the number of decks and rules variations specified. The standard error of each is .01%. If you try to duplicate these numbers yourself, specify a shuffle after every hand.

The + for some California and Texas casinos means you pay a per-hand collection, typically at least 1%, increasing your disadvantage.

Column #6

The next column is number of decks shuffled together.

Column #7

The column labeled "cut" shows the number of decks yet unseen when the dealer is undecided on whether to shuffle or deal another round.

For games with a "cut card" to determine the shuffle point, "decks unseen" is the number of cards behind the cut card plus the number of burned cards unseen, divided by 52.

Columns #8 & 9

The next two columns are minimum and maximum bet size. Some casinos have lower minimums than this on weekdays, and some have higher minimums during the busiest hours.

Column #10

The last column is comments, which lists deviations from this base set of rules: You lose one bet max to a dealer's BJ; the dealer does not look at the hole card if the upcard is not an ace, and may or may not look at it if the upcard is an ace; BJ pays 3:2; you may double down on any two cards but not after splitting; you may split any pair; you may resplit any pair except aces to make up to four hands; split aces receive one card each; insurance; and no surrender. Dealer action on soft seventeen is specified.

Empty Tables

All casinos in Oregon and most in Washington as well as Seminole Hard Rock in Hollywood, FL leave the cards in the shoe when a table empties, instead of spreading them and shuffling for a new player. Casinos elsewhere for the most part remove the cards from a shoe when the table empties, so we are using that as the default procedure. If you find a casino that handles the table-emptying situation different than reported in CBJN, please let us know so that we can update that detail.

Ad: Green Chip on BJ21

If you have been wondering whether to join the online world and get yourself an email address and start cruising the Internet, here is incentive to do it: green chip on http://www.BJ21.com.

Green chip is a private club for card counters. It is more than just a place for swapping stories and sharing blackjack advice; green chip also serves as the social center of the world for card counters. (The busiest page is one devoted to topics other than gambling.) Green chip also has lively discussions of poker, video poker, and craps. There are more than 800 green chippers.

What do you get if you join green chip? You get a password that allows you to open the green-chip pages of the Internet site BJ21.com. Arnold Snyder has described those pages best: "a never-ending treasure trove of valuable information." Thousands of messages are posted to the green-chip pages of BJ21 every month.

BJ21 also contains a free page, so that you can see what exchanging messages on the Internet is all about

Parties. Green chip is also a place for camaraderie. 60 of us get together in Las Vegas each fall for our biggest party of the year. We have also had green-chip parties in Reno, Mississippi, the Midwest, and elsewhere. Most of the people I currently consider to be my best friends are people I originally met at green-chip parties.

Post of the Month. Each month a Post of the Month is selected by green chippers from among all the messages posted to the green-chip pages of BJ21 during the month; the author of the Post of the Month receives a check for $100. All past posts of the month are archived; reading them requires a green-chip password.

10% discount on books. Green chippers get 10% off on books and software.

Cost. The cost of green chip is $59 per year. Most green chippers prefer to pay by having us charge their credit cards $14.75 quarterly until they say to cancel. Sign up using the Order Form on BJ21.com.

Key to Rules

AJ: Ace-jack of spades pays double.

all: Lose all on doubles or splits if dealer has BJ.

A8: The only splits allowed are A-A and 8-8.

burn20: See www.ukcasinotablegames.info/blackjackburn20.html

col: Casino collects a fee per hand, generally at least 1%.

cs: Casino surrender. Player with a two-card twenty can accept a half win against a 10, if the dealer does not have a natural.

csm: Continuous-shuffle machine.

da: Double down on any two or more cards.

dab: Double attack blackjack. All 10s removed from deck, player can double bet after seeing one dealer card.

dba: Double on any number of cards.

ddd: Redouble, i.e. double again after doubling and getting a card.

ddr: Double down rescue, ie. surrender after doubling down.

de: Double exposure. Dealer's two cards both face up. Dealer wins all ties except BJ against BJ.

ds: Double down after splitting.

dsa: Double down after splitting aces.

ds10: Double down on ten or eleven after splitting.

d3: Double down on first three cards.

d4: Double down on first four or fewer cards.

d8: Double down only on two-card eight or more, including soft totals.

d9: Double down only on two-card nine or more.

d10: Double down only on two-card ten or more.

d11: Double down only on two-card eleven.

es: Early surrender.

es10: Early surrender against 10, late surrender against others.

extreme: Extreme 21. See wizardofodds.com.

fak1, fak2: Games using six or eight decks that can be mistaken for single- or double-deckers.

freebet: Dealer total of 22 pushes all unbusted player hands except pays 3:2 on player naturals. Player can split up to four hands and double on 9-11 with 2, 3, or 4 cards without betting extra.

hide: Dealer shows player cards only when necessary to decide winner.

highhand: Players must contribute to a side pot from which the house takes 5%.

hitie: High Tie Bonus Bet: The payouts are based on the player's first two cards. A suited pair pays 10:1, any other pair pays 3:1, a suited BJ pays 15:1 any other BJ pays 6:1, and a player BJ pushing a dealer BJ pays 50:1

hsa: Hit after splitting aces.

h17: Dealer hits soft seventeen.

(I): The casino is owned by Indians who might hide behind their sovereignty. If you have a problem in an (I) casino, you will have no legal recourse.

LL6:Lucky Ladies sidebet. Payoffs: 3/6/9/25/250 for any 20/suited20/matched 20/Q-Q/Q-Q & dealer BJ.

LL7:Lucky Ladies sidebet. Payoffs: 3/7/9/25/400 for any 20/suited20/matched 20/Q-Q/Q-Q & dealer BJ.

LL9: Lucky Ladies sidebet. Payoffs: 4/9/19/125/1000 for any 20/suited 20/matched 20/Qh-Qh/Qh-Qh & dlr BJ.

LL10: Lucky Ladies sidebet. Payoffs: 4/10/25/200/1000 for any 20/suited 20/matched 20/Qh-Qh/Qh-Qh & dlr BJ.

ls: Late surrender.

lsn: Late surrender on any number of cards, including after splitting.

lsnxa: Late surrender on any number of cards except no surrender against ace.

lsxa: Late surrender except no surrender against ace.

ma: Multiple-action blackjack.

min: Mid-entry restricted to table minimum.

nc: No cards; i.e. digital blackjack.

nch: No chips; i.e. digital chip stacks

nhsa: No drawing to split aces (Spanish)

ni: No insurance.

nm: No mid-game entry.

nmm: No mid-game entry and no mid-game spreading to multiple hands.

nmo: No mid-game entry on request.

nms: Mid-game: no sitting out hands, and if you drop from two hands to one you cannot go back to two hands.

nobj: If dealer has 10 and ace, the hand plays as an ordinary twenty-one and not a BJ.

No Bust: If you and the dealer both bust, and the dealer busts with a higher total, you push instead of lose. Joker-joker pays 2:1. All blackjacks count as ordinary 21s. There are twelve jokers per six decks; a joker makes a hand count 21. Jokers work on dealer hands as well, and benefit the dealer more than the player because if the dealer's upcard is a joker the players are not allowed to draw.

nrs: No resplits.

nrs10: No resplits of any 10-count cards.

nsa: No splits of aces.

nsjq: No splits of unlike 10-count cards.

ns10: No splits of any 10-count cards.

nsxa: No splits except you can split aces. ("Multiple Action")

ou25: Side bets on whether your first two cards are over or under 13. The 25 means max bet of $25.

pb: Player banked.

pk: Dealer looks at the index of the hole card under a 10.

PD: If doubling on 10 or 11, can request a new third card.

PS: Split 15 or 16 as if you had a pair.

rsa: Resplit aces.

rsa3: Resplit aces once only, to make three hands.

rs3: Resplit non-aces once only, to make three hands.

sc: Card used to determine shuffle point on one or two decks.

Single21: rules include 21e,21w,da,sura,6; suited BJs pay 3:2, splits allowed after hitting.

sf21: "Super Fun 21": blackjack with liberal rules (da, ds, dsa, hsa, lsn, rsa, sura, 21d, 21w, 5, 6), but most BJs win even money (21e).

shoe: Cards dealt from a shoe. Used only for single and double deck, which more commonly are dealt without a shoe.

snoop: An in-table device tracks cards and betting; i.e. i-Table or MindPlay.

spa32: Split aces that draw for 2 card 21 pay 3:2.

Spanish: Spanish 21 is played with a short pack — 10s are removed from each regular deck, leaving aces though 9s and face cards. This is equivalent to starting a shoe with a count per deck of -4, and costs you 2.3% compared to the use of full decks. Spanish 21 has liberal rules, but they make up only part of the cost of removing all the 10s. The casino edge when the dealer hits soft seventeen is 0.76% for six decks or 0.78% for eight decks. When the dealer stands on soft seventeen, the casino edge is 0.40% for six decks or 0.42% for eight decks. Among the more interesting options allowed on Spanish 21 are: your 21 beats the dealer's 21, doubling on two or more cards, hitting or doubling after splitting aces, and surrender after doubling down (called double-down rescue). Redoubling, when allowed, is worth 0.34% . These are the numbers reported by Mike Shackleford (wizardofodds.com).

streak: A sidebet that pays if you win consecutive hands. Most common payout: 2 wins pays 3:1, 3 wins pays 8:1, 4 wins pays 18:1, and 5 wins pays 38:1.

sura: Surrender anytime, including after hitting, doubling, or splitting.

switch: Blackjack Switch. See www.blackjackswitch.com.

switch6: Blackjack Switch in which a switched A/10 is treated as a drawn 21 and will push against a dealer 21 or 22.

s17: Dealer stands on soft seventeen.

toke: Dealers keep their own tokes.

tu: Player may triple down on 9, 10 or 11.

tu10: Player may triple down on 10 or 11.

ur: Unlimited resplits of non-aces.

1spot: Players allowed to bet only one spot.

3up: Play one hand against three dealer upcards.

5: Player's winning five-card twenty-one pays double.

6: Player's six-card unbusted hand wins automatically, even if the dealer has 10 up and ace in hole.

6:5: BJs pay 6:5.

7:5: BJs pay 7:5.

21d: Diamond BJ pays 2:1. 1/16 of BJs are in diamonds.

21e: BJ pays even money instead of 3 to 2.

21p: If dealer has BJ with 10 up, you push with twenty-one in any number of cards.

21s: Suited BJs pay 2:1. 1/4 of BJs are suited.

21t: Tied BJ pushes (at double exposure).

21w: Tied BJ wins.

22p: If dealer gets 22, players push instead of win.
